

# RAIL LED RETROFIT

## LED INTERIOR LIGHTING SYSTEMS

A Safe Fleet Brand

Whether a single rail car upgrade, or an entire fleet of replacements, rail engineers select Pretoria for one reason - our ability to navigate around potential obstacles such as:

- Replacement fixtures sharing a power supply to reduce overall cost
- Ability to create custom wiring harnesses for plug and play conversions

Your time is valuable. Allow Pretoria's expert consultants to help you navigate around potential obstacles.

### SERVICE

Our dedicated inside and outside sales team have years of experience to guide you through the process of retrofitting

### MADE IN USA

Proudly assembled in North Carolina

### WARRANTY

LED retrofit systems carry a 5 year warranty

# OUR LED RETROFITS HELP CREATE SAFE AND INVITING INTERIORS.

LED's are more affordable and energy efficient than ever and Pretoria has been a leading supplier of Interior LED Lighting Systems into the Transit Market since 2007.

**Interior:** T8 fluorescent lamps, before LED retrofit

**Interior:** After the LED retrofit with cool white LED's (6,500K). Note the color difference between the two technologies.

**Exterior:** T8 fluorescent lamps, before LED retrofit

**Exterior:** After the LED retrofit with cool white LED's (6,500K). Note the color difference between the two technologies.
