

OVERHEAD PARCEL SYSTEMS

STANDARD AND DELUXE OPR'S

A Safe Fleet Brand

Designed and manufactured for each individual bus model providing unique and cost effective solutions. Pretoria pioneered the use of lightweight aluminum composite panels in conjunction with satin anodized aluminum extrusions to provide solid and easy to install systems. All of our OPR's systems are available with integral ducting that is engineered for use with all types of AC units.

OPR's are available as Standard or Deluxe models, both can be ducted versions. Deluxe OPR's offer a deeper parcel compartment to accept carpeted false floor panels to conceal the addition of optional LED reading lights, Passenger Convenience Modules, speakers, monitor brackets etc.

SERVICE

Our dedicated inside and outside sales team have years of experience to guide you through the process of retrofitting
