

OPR SYSTEMS

Pretoria OPR (Overhead Parcel Rack) systems are standard equipment for numerous shuttle bus, school bus and military bus manufacturers. Providing spacious parcel storage capacity, these OPR systems are of true lightweight modular design and constructed of aluminum composite materials and anodized aluminum extrusions. OPR/Duct systems are engineered for optimum air delivery function with all A/C manufacturer's units including side mount, rear mount and roof mount A/C units. All OPR systems comply with or exceed FVMSS 302 and Docket 90.

- Standard OPR
- OPR / Duct
- Deluxe OPR / Duct
- Open Frame OPR

We design innovative bus interiors.
